## Electrotypes.

[The following 14 beautiful electrotypes are thick solid shells, put together by means of a galvanic battery and the finest ever made in this country; extra thick bronze, so that they will sound very much like an original medal and some of them cannot be procured but in electrotypes at any price, without a doubt; the man that made these is accounted to be the best at that business on this continent; but the acid from the bronze has completely ruined his constitution and his doctor advised him to quit the business or it would shorten his days; therefore, he has purchased a small farm and will not make any more; they are not to be confounded with the ordinary copies or electrotypes generally offered.]

802 The Celebrated Waterloo Medal; obv., the four crowned heads of Europe, which combined against that hero Napoleon I, at Waterloo; the King of England, the King of Germany, Emperor of Austria and Emperor of Russia; above, chariot of Victory and 4 guiding angels; Adam to the right, Eve to left, beneath chariot of Fame; rev., Mars, the God of war, in centre; Duke of Wellington and Blucher, the two field marshals, with angel, in centre, surrounded with a group of figures representing the horrors of war; fine bronze proof; cost $20; largest medal made; there never was an original one struck as the die was never hardened and it is only an electrotype that they have in the British Museum; this I say confidently; I have it from the best authority; size 90.
